

Emu Park West Reservoir

- Project Description:** The project involves the construction of a new 4 MI (megalitre) potable water supply concrete reservoir to the west of Emu Park.
- Reasons for Project:** A new potable water supply reservoir is necessary to ensure that the townships of Emu Park, Zilzie and Keppel Sands have sufficient and reliable water supplies into the future.
- Benefits of Project:** This new reservoir will improve the reliability of the potable water supply to the southern end of the Capricorn Coast by providing an additional 4 MI (4,000,000 litres) of storage capacity in the network.
- Estimated Total Cost:** \$2.2 Million
- Commencement Date:** August 2019
- Duration of Project:** Twelve (12) months
- Contact Officer:** Stuart Doak, Manager Infrastructure Projects
- Public Consultation:** Minimal – public awareness only – via Council Website, Council Facebook page, media publicity
- Potential Interruptions:** Minimal impact on residents
