

## Thompson Point Road – Boat Ramp Access Road and Parking Area

<b>Project Description:</b>	Modifications and upgrades to the existing access road alignment and construction of a new hardstand parking area are to be conducted which forms part of a Department of Transport and Main Roads (TMR) project to upgrade the Thompson Point boat ramp facility.
<b>Reasons for Project:</b>	This project forms part of a TMR project to upgrade and formalise the Thompson Point boat ramp facility. Currently, part of the existing road is through private land which will be realigned to the new road reserve alignment. A gravel hardstand will be placed over the existing soil to improve wet weather access to the ramp.
<b>Benefits of Project:</b>	The new road alignment will be placed wholly within road reserve. Car and trailer parking will be situated on a gravel hardstand to allow for better access in wet weather.
<b>Estimated Total Cost:</b>	Total cost is \$150,000.00. Funding is provided by TMR.
<b>Commencement Date:</b>	Works to commence mid-October 2019.
<b>Duration of Project:</b>	Works to be completed in four (4) weeks, subject to weather and ground conditions.
<b>Contact Officer:</b>	Darren Hines
<b>Public Consultation:</b>	Notification will be by social media and letters to affected residents.
<b>Potential Interruptions:</b>	Minimal disruptions to traffic and local accesses with traffic controllers in place when required.
