Upgrade onsite sewage treatment system

Project Description:	Upgrade onsite sewage treatment system
Reasons for Project:	The current system has reached the end of its life; works will reduce ongoing maintenance costs and provide an efficient sewage treatment system for the general public
Benefits of Project:	Minimising waste treatment costs to Council
Estimated Total Cost:	\$22,000
Commencement Date:	Late November
Duration of Project:	Three (3) weeks
Contact Officer:	Ben Allen – Projects Supervisor
Public Consultation:	N/A
Potential Interruptions:	Toilets will be closed. Portable toilets will be provided for duration of works
