

## Part 5. Tables of assessment

### 5.1. Preliminary

The tables in this part identify the category of development, and the category of assessment and assessment benchmarks for assessable development in the planning scheme area.

### 5.2. Reading the tables

The tables identify the following:

- (1) the category of development:
  - (a) prohibited;
  - (b) accepted, including accepted subject to requirements; and
  - (c) assessable development, that requires either code or impact assessment;
- (2) the category of assessment, code or impact, for assessable development in:
  - (a) a zone and, where used, a precinct of a zone;
  - (b) a local plan where used, and where used, a precinct of a local plan;
  - (c) an overlay where used;
- (3) the assessment benchmarks for assessable development, including:
  - (a) whether a zone code or specific provisions in the zone code apply (shown in the 'assessment benchmarks' column);
  - (b) if there is a local plan, whether a local plan code or specific provisions in the local plan code apply (shown in the 'assessment benchmarks' column);
  - (c) if there is an overlay:
    - (i) whether an overlay code applies (shown in section 5.9); or
    - (ii) whether the assessment benchmarks as shown on the overlay map (noted in the 'assessment benchmarks' column) applies;
  - (d) any other applicable code(s) (shown in the 'assessment benchmarks' column);
- (4) any variation to the category of assessment (shown as an 'if' in the 'categories of development and assessment' column) that applies to the development.

Note — Development will only be taken to be prohibited development under the planning scheme if it is identified as prohibited development in Schedule 10 of the Regulation.

Editor's note — Examples of matters that can vary the category of assessment are gross floor area, height, numbers of people or precinct provisions.

### 5.3. Categories of development and assessment

#### 5.3.1. Process for determining the category of development and the category of assessment for assessable development

The process for determining a category of development and category of assessment is:

- (1) for a material change of use, establish the use by reference to the use definitions in Schedule 1;
- (2) for all development, identify the following:
  - (a) the zone or zone precinct that applies to the premises, by reference to the zone map in Schedule 2;

- (b) if a local plan or local plan precinct applies to the premises, by reference to the local plan map in Schedule 2;
- (c) if an overlay applies to the premises, by reference to the overlay map in Schedule 2;
- (3) determine if the development is accepted development under Schedule 6 of the Regulation or is assessable or prohibited development under Schedule 10 of the Regulation;
 

Editor's note—Schedule 6 of the Regulation prescribes development of a planning scheme cannot categorise as assessable. Schedule 7 of the Regulation identifies development the state makes accepted. Some development in Schedule 7 may still be made assessable under this planning scheme.
- (4) otherwise, determine the initial category of assessment by reference to the tables in:
  - (a) Section 5.4 Categories of development and assessment — Material change of use;
  - (b) Section 5.5 Categories of development and assessment — Reconfiguring a lot;
  - (c) Section 5.6 Categories of development and assessment — Building work;
  - (d) Section 5.7 Categories of development and assessment — Operational work;
- (5) a precinct of a zone may change the category of development or assessment and this will be shown in the 'categories of development and assessment' column of the tables in sections 5.4, 5.5, 5.6 and 5.7;
- (6) if a local plan applies, refer to the table(s) in section 5.8 Categories of development and assessment — Local plans, to determine if the local plan changes the category of development or assessment for the zone;
- (7) if a precinct of a local plan changes the categories of development and assessment this will be shown in the 'categories of development and assessment' column of the table(s) in section 5.8;
- (8) if an overlay applies refer to section 5.9 Categories of development and assessment — Overlays, to determine if the overlay further changes the category of development or assessment.

### 5.3.2. Determining the category of development and categories of assessment

- (1) A material change of use is assessable development requiring impact assessment:
  - (a) unless the table of assessment states otherwise;
  - (b) if a use is not listed or defined;
  - (c) unless otherwise prescribed in the Act or the Regulation.
- (2) Reconfiguring a lot is assessable development requiring code assessment unless the tables of assessment state otherwise or unless otherwise prescribed in the Act or the Regulation.
- (3) Building work and operational work are accepted development, unless the tables of assessment state otherwise or unless otherwise prescribed within the Act or the Regulation.
- (4) Where an aspect of development is proposed on premises included in more than one zone, local plan or overlay, the category of development or assessment for that aspect is the highest category under each of the applicable zones, local plans or overlays.
- (5) Where development is proposed on premises partly affected by an overlay, the category of development or assessment for the overlay only relates to the part of the premises affected by the overlay.
- (6) For the purposes of Schedule 6, Part 2 Material change of use section 2 (2)(d)(i) or (ii) of the Regulation, an overlay does not apply to the premises if the development meets the acceptable outcomes that form the requirements for accepted development in the relevant overlay code.
- (7) If development is identified as having a different category of development or category of assessment under a zone than under a local plan or an overlay, the highest category of development or assessment applies as follows:
  - (a) accepted development subject to requirements prevails over accepted development;

- (b) code assessment prevails over accepted development where subject to requirements and accepted development;
  - (c) impact assessment prevails over code assessment, accepted development where subject to requirements and accepted development.
- (8) Despite sub-subsection 5.3.2(4) and 5.3.2(7) above, a level of assessment in a local plan overrides a level of assessment in a zone.
- (9) The Regulation prescribes development that the planning scheme cannot make assessable in Schedule 6.
- Editor's note — Schedule 7 of the Regulation also identifies development the state makes accepted. However, some development in that schedule may still be made assessable under this planning scheme.
- (10) Despite all of the above, if development is listed as prohibited development under Schedule 10 of the Regulation, a development application cannot be made.

Note — Development is to be taken to be prohibited development under the planning scheme only if it is identified in Schedule 10 of the Regulation.

### 5.3.3. Determining the requirements for accepted development assessment benchmarks and other matters for assessable development

- (1) Accepted development does not require a development approval and is not subject to assessment benchmarks. However, certain requirements may apply to some types of development for it to be accepted development. Where nominated in the tables of assessment, accepted development must comply with the requirements identified as acceptable outcomes in the relevant parts of the applicable code(s).
- (2) Accepted development that does not comply with one or more of the nominated acceptable outcomes in the relevant parts of the applicable code(s) becomes code assessable development, unless otherwise specified.
- (3) The following rules apply in determining assessment benchmarks for each category of development and assessment.
- (4) Code assessable development:
  - (a) is to be assessed against all the assessment benchmarks identified in the assessment benchmarks column;
  - (b) that occurs as a result of development becoming code assessable pursuant to sub-section 5.3.3(2), must:
    - (i) be assessed against the assessment benchmarks for the development application, limited to the subject matter of the required acceptable outcomes that were not complied with or were not capable of being complied with under sub-section 5.3.3(2);
    - (ii) comply with all required acceptable outcomes identified in sub-section 5.3.3(1), other than those mentioned in sub-section 5.3.3(2);
  - (c) that complies with:
    - (i) the purpose and overall outcomes of the code complies with the code;
    - (ii) the performance or acceptable outcomes of the code complies with the purpose and overall outcomes of the code;
  - (d) is to be assessed against any assessment benchmarks for the development identified in section 26 of the Regulation.

Editor's note—Section 27 of the Regulation identifies the matters code assessment must have regard to.

- (5) Impact assessable development:
  - (a) is to be assessed against the identified assessment benchmarks in the assessment benchmarks column;

Editor's note—The whole of the planning scheme is the assessment benchmark for impact assessable development in this planning scheme.

- (b) is to be assessed against any assessment benchmarks for the development identified in section 30 of the Regulation.

Editor's note—Section 31 of the Regulation identifies the matters that impact assessment must have regard to.

## 5.4. Categories of development and assessment — Material change of use

The following tables identify the categories of development and assessment for development in a zone for making a material change of use.

### 5.4.1. Centre category zones

Table 5.4.1.1 — Neighbourhood centre zone

Use column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
If the circumstances for impact assessment (as specified at the end of this table) do not apply to the development, then the following are the circumstances for accepted, accepted subject to requirements and code assessment		
<b>Accommodation activities</b>		
<ul style="list-style-type: none"> <li>Caretaker's accommodation</li> <li>Dwelling unit</li> </ul>	<b>Accepted subject to requirements</b> If it is within an existing building.	<b>Development codes:</b> <ul style="list-style-type: none"> <li>Accommodation activities code</li> <li>General development code</li> <li>Development works code</li> </ul>

Editor's note – The above categories of development and assessment apply unless otherwise prescribed in the Regulation.

Editor's note — The planning scheme also regulates reconfiguring a lot associated with an overlay through the tables of assessment under section 5.9.

## 5.6. Categories of development and assessment — Building work

The following table identifies the categories of development and assessment for building work regulated under the planning scheme.

**Editor's note:** For additional information about building work regulated under the planning scheme, refer to Section 1.6 contained in Part 1 of the planning scheme.

**Editor's note:** The categories of development and assessment for building work in Table 5.6.1 do not apply to development approved and undertaken in compliance with a related Development Permit for Material Change Use.

Zone column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
<b>Accepted development</b>		
Any other building work not listed in this table.		

Editor's note – The above categories of development and assessment apply unless otherwise prescribed in the Regulation.

Editor's note — The planning scheme also regulates building work associated with an overlay through the tables of assessment under section 5.9.

## 5.7. Categories of development and assessment — Operational work

The following table identifies the categories of development and assessment for operational work regulated by the planning scheme.

Table 5.7.1 — Operational work

Zone column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
<b>Accepted subject to requirements and code assessment</b>		
<b>Operational work associated with reconfiguring a lot</b>		
<ul style="list-style-type: none"> <li>In all zones</li> </ul>	<b>Code assessment</b> In all circumstances	<b>Development codes:</b> Development works code
<b>Operational work that is not associated with reconfiguring a lot</b>		
<ul style="list-style-type: none"> <li>In all zones</li> </ul>	<b>Accepted</b> If the operational work is for the purpose of clearing native vegetation that is 'exempt clearing work' defined under the Planning Regulation 2017 except for clearing vegetation that is 'residential clearing' or clearing vegetation that is 'for urban purposes in an urban area'.	<b>Not applicable</b>
	<b>Accepted subject to requirements</b> If the operational work is for the purpose of clearing native vegetation and it does not comply with the circumstances for being categorised as 'accepted'.	<b>Development codes:</b> Development works code (outcomes applicable for clearing native vegetation)
	<b>Accepted subject to requirements</b> If the operational work is for the purpose of providing access and parking.	<b>Development codes:</b> <ul style="list-style-type: none"> <li>Development works code (outcomes applicable for access and parking)</li> </ul>
	<b>Accepted subject to requirements</b> If the operational work is for the purpose of providing an advertising device.	<b>Development codes:</b> <ul style="list-style-type: none"> <li>Development works code (outcomes applicable for advertising devices)</li> </ul>
	<b>Accepted subject to requirements</b> If the operational work is for the purpose of roof and allotment drainage.	<b>Development codes:</b> <ul style="list-style-type: none"> <li>Development works code (outcomes applicable for roof and allotment drainage)</li> </ul>
	<b>Accepted subject to requirements</b> If the operational work is for the	<b>Development codes:</b> <ul style="list-style-type: none"> <li>Development works code (outcomes applicable for</li> </ul>

Zone column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
	purpose of providing telecommunications.	telecommunications)
	<b>Accepted subject to requirements</b> If the operational work is for the purpose of providing energy supply.	<b>Development codes:</b> <ul style="list-style-type: none"> <li>Development works code (outcomes applicable for energy supply)</li> </ul>
	<b>Accepted subject to requirements</b> If the operational work is for the purpose of undertaking earthwork (excavation or filling that materially affects premises or their use).	<b>Development codes:</b> <ul style="list-style-type: none"> <li>Development works code (outcomes applicable for earthwork <b>and retaining walls</b>)</li> </ul>
	<b>Code assessment</b> If the operational work is for the purpose of stormwater management.	<b>Development codes:</b> <ul style="list-style-type: none"> <li>Development works code (outcomes applicable for stormwater management)</li> </ul>
	<b>Code assessment</b> If the operational work is for the purpose of providing reticulated water supply requiring extension, alteration or augmentation of Council's water supply network.	<b>Development codes:</b> <ul style="list-style-type: none"> <li>Development works code (outcomes applicable for water supply)</li> </ul>
	<b>Code assessment</b> If the operational work is for the purpose of providing reticulated sewerage requiring extension, alteration or augmentation of Council's sewer network.	<b>Development codes:</b> <ul style="list-style-type: none"> <li>Development works code (outcomes applicable for sewage and waste water treatment and disposal)</li> </ul>
	<b>Code assessment</b> If the operational work is for the purpose of constructing a road, pathway, bridge or other structures within a road reserve (not including vehicle access crossovers).	<b>Development codes:</b> <ul style="list-style-type: none"> <li>Development works code (outcomes applicable for roadwork)</li> </ul>
<b>Accepted development</b>		
Any other operational work not listed in this table.		

Editor's note – The above categories of development and assessment apply unless otherwise prescribed in the Regulation.

## 5.8. Categories of development and assessment — Local plans

The following tables identify the categories of development and assessment for development in areas affected by a local plan.

### 5.8.1. Seaspray Local Plan

- (1) The following tables identify the categories of development and assessment for material change of use, reconfiguration of a lot and building work in areas affected by the Seaspray local plan.
- (2) The categories of development and assessment for operational works for areas affected by the Seaspray local plan remain the same as for zones and they are contained in table 5.7.1.

**Editor's note:** When determining the hierarchy of assessment benchmarks, reference should be made to Section 1.5 located in Part 5 of the Planning Scheme.

**Table 5.8.1.1 – Seaspray Residential Low Density Precinct: material change of use**

Use column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column

<b>Accepted subject to requirements and code assessment</b>		
<b>All precincts</b>		
<ul style="list-style-type: none"> <li>All building work</li> </ul>	<b>Accepted subject to requirements</b> If the building work <b>does not satisfy an alternative category of development description in this table and it</b> involves: <b>(a) a new building or structure; or (a)(b) –an alteration, addition or extension to an existing building or structure (including any domestic outbuildings)</b> which results in an increase in the gross floor area of the building or an increase in the height of the building <b>or</b>	<b>Local plan code:</b> <ul style="list-style-type: none"> <li>Seaspray local plan code acceptable outcomes AO3.1(a), AO3.1(b), AO3.2, AO4.1, AO4.4, AO5.1, AO5.2, AO7.1, AO7.2, AO7.3, and AO7.4</li> </ul>

Development column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
	<p><b>structure.</b></p> <p><b>Accepted subject to requirements</b>                      If the building work is for any dwelling house and it results in:                      (a) a situation where there is a primary dwelling house and a secondary dwelling on the lot; or                      (b) an alteration, addition or extension to a secondary dwelling which results in an increase in gross floor area, or an increase in site cover, or an increase in the building height.</p> <p>If the building work is for the construction of a dwelling house (for the purpose of a secondary dwelling).</p>	<p><b>Local plan code:</b></p> <ul style="list-style-type: none"> <li>Seaspray local plan code acceptable outcomes AO3.1(a), AO3.1(b), AO3.2, AO4.1, AO4.4, AO5.1, AO5.2, AO7.1, AO7.2, AO7.3, and AO7.4</li> </ul> <p><b>Development codes:</b></p> <ul style="list-style-type: none"> <li>Accommodation activities code [outcomes applicable for a dwelling house (secondary dwelling)]</li> <li>General development code</li> <li>Development works code</li> </ul>
	<p><b>Accepted subject to requirements</b>                      If the building work is associated with a dwelling house (for the purpose of constructing a standalone Class 10a building under the Building Code of Australia).</p>	<p><b>Local plan code:</b></p> <ul style="list-style-type: none"> <li>Seaspray local plan code acceptable outcomes AO3.1(a), AO3.1(b), AO3.2, AO4.2, AO4.3, AO4.4, AO5.1, AO5.2, AO7.1, AO7.2, AO7.3, AO7.4, and AO8.3</li> </ul>
	<p><b>Accepted subject to requirements</b>                      If the building work involves:                      (a) a retaining wall; or                      (b) excavating or filling in accordance with the definition of Building Work in the Act.</p>	<p><b>Local plan code:</b></p> <ul style="list-style-type: none"> <li>Seaspray local plan code acceptable outcomes AO3.2(a), AO5.1, AO5.2, AO6.1, AO9.1, and AO9.2</li> </ul> <p><b>Development codes:</b></p> <ul style="list-style-type: none"> <li>Development works code (all acceptable outcomes applicable for earthwork and retaining walls)</li> </ul>
<b>Accepted development</b>		
Any other building work not listed in this table.		

## 5.9. Categories of development and assessment — Overlays

The following tables identify where an overlay changes the categories of development and assessment from that stated in categories of development and assessment for a zone or a local plan.

**Table 5.9.1 Acid sulphate soils overlays**

Development column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
<b>If located below the twenty (20) metres Australian Height Datum contour level</b>		
<b>Material change of use, reconfiguring a lot, operational work or building work</b>		
Development for the following: <ul style="list-style-type: none"> <li>• Material change of use; or</li> <li>• Reconfiguring a lot; or</li> <li>• Operational work; or</li> <li>• Building work.</li> </ul>	<b>Code assessment</b> If located on identified known or potential acid sulphate soils and the following is involved: <ul style="list-style-type: none"> <li>(a) excavation of 100 cubic metres or more of soil or sediment; or</li> <li>(b) filling of land below 5 metres AHD and there is to be 500 cubic metres of fill material at an average depth of 0.5 metres or more.</li> </ul>	Acid sulfate soils overlay code
	<b>Code assessment</b> If located at or below 5 metres AHD and the following is involved: <ul style="list-style-type: none"> <li>(a) excavation of 100 cubic metres or more of soil or sediment; or</li> <li>(b) filling of land below 5 metres AHD and there is to be 500 cubic metres of fill material at an average depth of 0.5 metres or more.</li> </ul>	Acid sulfate soils overlay code
	<b>Code assessment</b> If located below 20 metres AHD and excavating 100 cubic metres or more of soil or sediment below 5 metres AHD.	Acid sulfate soils overlay code

Editor's note – The above categories of development and assessment apply unless otherwise prescribed in the Regulation.

Table 5.9.2 Airport environs overlays

Development column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
<b>If located within the Australian Noise Exposure Forecast contour overlay</b>		
<b>Material change of use</b>		
Material change of use for the following: <ul style="list-style-type: none"> <li>all uses within the accommodation activities group</li> <li>all uses within the centre activities group</li> <li>all uses within the community activities group</li> <li>all uses within the entertainment activities group</li> </ul>	<b>Code assessment</b>	Airport environs overlay code
<b>Reconfiguring a lot</b>		
Reconfiguring a lot	<b>Code assessment</b>	Airport environs overlay code
<b>If located within the obstacle limitation surface overlay</b>		
<b>Material change of use or building work</b>		
Development for the following: <ul style="list-style-type: none"> <li>Material change of use</li> <li>Building work</li> </ul>	<b>Code assessment</b> If involving a permanent or temporary building, structure or equipment (such as antennae, satellite dishes, cranes and other equipment) which enters into operational airspace above a height identified on the operational airspace obstacle limitation surface contours shown on an overlay.	Airport environs overlay code
	<b>Code assessment</b> If involving the emission of a gaseous plume with a velocity exceeding 4.3 metres per second which enters into operational airspace above a height identified on the operational airspace obstacle limitation surface contours shown on an overlay.	Airport environs overlay code
	<b>Code assessment</b> If involving the emission of airborne particulates such as steam, dust, smoke, ash and other airborne particles which enter into operational airspace above a height identified on the operational airspace obstacle limitation surface	Airport environs overlay code

Development column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
	<p>contours shown on an overlay.</p> <p><b>Code assessment</b> If involving transient intrusions (such as parachuting, hot air ballooning and hang-gliding) by aviation activities into operational airspace above a height identified on the operational airspace obstacle limitation surface contours shown on an overlay map.</p>	Airport environs overlay code
<b>If located between the Rockhampton Airport runways and the distance to runways overlays</b>		
<b>Material change of use, building work or operational work</b>		
<p>Development for the following:</p> <ul style="list-style-type: none"> <li>• Material change of use</li> <li>• Building work</li> <li>• Operational work</li> </ul>	<p><b>Code assessment</b> If:</p> <p>(a) located within thirteen (13) kilometres of Rockhampton airport runway; and</p> <p>(b) the development is a material change of use for a use other than a use from within the accommodation activities group and it involves the following:</p> <ul style="list-style-type: none"> <li>(i) concentrated on-site, disposal of food, organic material or other putrescible waste; or</li> <li>(ii) transfer of food, organic material or other putrescible waste; or</li> <li>(iii) composting of food, organic material or other putrescible waste.</li> </ul>	Airport environs overlay code
	<p><b>Code assessment</b> If:</p> <p>(a) located within eight (8) kilometres of Rockhampton airport runway; and</p> <p>(b) the development is a material change of use for a use other than a use from within the accommodation activities group and it involves the following:</p> <ul style="list-style-type: none"> <li>(i) fruit farming; or</li> <li>(ii) turf farming; or</li> <li>(iii) food processing/packaging plant; or</li> <li>(iv) fish processing/packaging plant; or</li> <li>(v) unenclosed aquaculture;</li> </ul>	Airport environs overlay code

Development column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
	or (vi) a piggery; or (vii) a dairy farm; or (viii) conservation estate; or (ix) construction of wetlands; or (x) showgrounds; or (xi) landfill.	
	<b>Code assessment</b> If located within six (6) kilometres of Rockhampton airport and the development involves the following: (a) straight parallel lines of lighting more than 500 metres long; or (b) flare plumes; or (c) buildings and structures with reflective surfaces; or (d) upward shining lights; or (e) flashing lights; or (f) laser lights; or (g) sodium lights.	Airport environs overlay code
<b>Reconfiguring a lot</b>		
Reconfiguring a lot	<b>Code assessment</b> If located within six (6) kilometres of Rockhampton airport and the development involves the following: (a) straight parallel lines of lighting more than 500 metres long; or (b) upward shining lights; or (c) flashing lights; or (d) laser lights; or (e) sodium lights.	Airport environs overlay code

Editor's note – The above categories of development and assessment apply unless otherwise prescribed in the Regulation.

Table 5.9.3 Biodiversity overlays

Development column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
<b>If located within one or more biodiversity overlays</b>		
<b>Material change of use</b>		
Dwelling house	<p><b>Code assessment</b></p> <p>If:</p> <p>(a) located within one or more of the following biodiversity overlays:</p> <ul style="list-style-type: none"> <li>(i) MSES – declared fish habitat;</li> <li>(ii) MSES – high ecological significance wetlands;</li> <li>(iii) MSES – high ecological value waters (wetland);</li> <li>(iv) MSES – marine park;</li> <li>(v) MSES – protected area;</li> <li>(vi) MLES – wetlands.</li> </ul>	Biodiversity overlay code
	<p><b>Code assessment</b></p> <p>If:</p> <p>(a) located within one or more of the following biodiversity overlays:</p> <ul style="list-style-type: none"> <li>(i) MSES – regulated vegetation;</li> <li>(ii) MSES – wildlife habitat;</li> <li>(iii) MLES – habitat and vegetation; and</li> </ul> <p>(b) not located within a building location envelope approved for development pursuant to a development permit issued under this planning scheme (as shown on a building location envelope plan).</p>	Biodiversity overlay code
	<p><b>Code assessment</b></p> <p>If:</p> <p>(a) located within:</p> <ul style="list-style-type: none"> <li>(i) ten (10) metres of the top of the bank of a waterway classified as stream order one or stream order two; or</li> <li>(ii) twenty-five (25) metres of the top of the bank of a waterway classified as stream order three or stream order four; or</li> <li>(iii) fifty (50) metres of the top</li> </ul>	Biodiversity overlay code

Development column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
	of the bank of a waterway classified as stream order five or higher order.	
All material change of use other than a dwelling house	<p><b>Code assessment</b> If:</p> <p>(a) made accepted subject to requirements or code assessment for the relevant zone or local plan in the tables of assessment located in:</p> <p>(i) Section 5.4 Categories of development and assessment — Material change of use; or</p> <p>(ii) Section 5.8 Categories of development and assessment — Local Plans; and</p> <p>(b) located within one or more of the following biodiversity overlays:</p> <p>(i) MSES – declared fish habitat;</p> <p>(ii) MSES – high ecological significance wetlands;</p> <p>(iii) MSES – high ecological value waters (wetland);</p> <p>(iv) MSES – marine park;</p> <p>(v) MSES – protected area;</p> <p>(vi) MLES – wetlands.</p>	Biodiversity overlay code
	<p><b>Code assessment</b> If:</p> <p>(a) made accepted subject to requirements or code assessment for the relevant zone or local plan in the tables of assessment located in:</p> <p>(i) Section 5.4 Categories of development and assessment — Material change of use; or</p> <p>(ii) Section 5.8 Categories of development and assessment — Local Plans; and</p> <p>(b) located within one or more of the following biodiversity overlays:</p> <p>(i) MSES – regulated vegetation;</p>	Biodiversity overlay code

Development column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
	<ul style="list-style-type: none"> <li>(ii) MSES – wildlife habitat;</li> <li>(iii) MLES – habitat and vegetation; and</li> <li>(c) not located within a building location envelope approved for development pursuant to a development permit issued under this planning scheme (as shown on a building location envelope plan).</li> </ul>	
	<p><b>Code assessment</b></p> <p>If:</p> <ul style="list-style-type: none"> <li>(a) made accepted subject to requirements or code assessment for the relevant zone or local plan in the tables of assessment located in: <ul style="list-style-type: none"> <li>(i) Section 5.4 Categories of development and assessment — Material change of use; or</li> <li>(ii) Section 5.8 Categories of development and assessment – Local Plans; and</li> </ul> </li> <li>(b) located within: <ul style="list-style-type: none"> <li>(i) ten (10) metres of the top of the bank of a waterway classified as stream order one or stream order two; or</li> <li>(ii) twenty-five (25) metres of the top of the bank of a waterway classified as stream order three or stream order four; or</li> <li>(iii) fifty (50) metres of the top of the bank of a waterway classified as stream order five or higher order.</li> </ul> </li> </ul>	Biodiversity overlay code
<b>Reconfiguring a lot</b>		
Reconfiguring a lot	<p><b>Code assessment</b></p> <p>If located within one or more of the following biodiversity overlays:</p> <ul style="list-style-type: none"> <li>(a) MSES – declared fish habitat; or</li> <li>(b) MSES – high ecological significance wetlands; or</li> <li>(c) MSES – high ecological value waters (wetland); or</li> <li>(d) MSES – marine park; or</li> </ul>	Biodiversity areas overlay code

Development column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
	(e) MSES – protected area; or (f) MSES – regulated vegetation; or (g) MSES – wildlife habitat; or (h) MLES – habitat and vegetation; or (i) MLES – wetlands.	
	<b>Code assessment</b> If the site contains a waterway.	Biodiversity areas overlay code
<b>Building work</b>		
Building work	<b>Code assessment</b> If: (a) the building work is not associated with a material change of use; and (b) the building work is: (i) for the construction of a dwelling house (for the purpose of a secondary dwelling); or (ii) for the purpose of constructing a standalone Class 10a building under the Building Code of Australia; and (c) located within one or more of the following biodiversity overlays: (i) MSES – declared fish habitat; or (ii) MSES – high ecological significance wetlands; or (iii) MSES – high ecological value waters (wetland); or (iv) MSES – marine park; or (v) MSES – protected area; or (vi) MLES – wetlands.	Biodiversity areas overlay code

Development column	Categories of development and assessment column	Assessment benchmarks for assessable development and requirements for accepted development column
	<p><b>Code assessment</b></p> <p>If:</p> <ul style="list-style-type: none"> <li>(a) the building work is not associated with a material change of use; and</li> <li>(b) the building work is: <ul style="list-style-type: none"> <li>(i) for the construction of a dwelling house (for the purpose of a secondary dwelling); or</li> <li>(ii) for the purpose of constructing a standalone Class 10a building under the Building Code of Australia; and</li> </ul> </li> <li>(c) located within one or more of the following biodiversity overlays: <ul style="list-style-type: none"> <li>(i) MSES – regulated vegetation; or</li> <li>(ii) MSES – wildlife habitat; or</li> <li>(iii) MLES – habitat and vegetation; and</li> </ul> </li> <li>(d) not located within a building location envelope approved for development pursuant to a development permit issued under this planning scheme (as shown on a building location envelope plan).</li> </ul>	Biodiversity areas overlay code
	<p><b>Code assessment</b></p> <p>If:</p> <ul style="list-style-type: none"> <li>(a) the building work is not associated with a material change of use; and</li> <li>(b) the building work is: <ul style="list-style-type: none"> <li>(i) for the construction of a dwelling house (for the purpose of a secondary dwelling); or</li> <li>(ii) for the purpose of constructing a standalone Class 10a building under the Building Code of Australia; and</li> </ul> </li> <li>(c) located within: <ul style="list-style-type: none"> <li>(i) ten (10) metres of the top of the bank of a waterway classified as stream order one or stream order two; or</li> </ul> </li> </ul>	Biodiversity overlay code
