

# Connecting you to more work.

## Your gateway to more business

We are the leading procurement services provider for Queensland local government, not-for-profits, local and State government owned corporations, utilities, large corporate entities and more.

Established in 2001 by the Local Government Association of Queensland, our goal is to connect local businesses like yours with our partners to provide access to more work opportunities.

We want to make sure that local businesses are getting a fair slice of the local work and projects on offer, and we want to make that as easy as possible for you.

## Why should I become a Local Buy supplier?

Being a Local Buy supplier not only provides you with more business, more opportunities, and more brand visibility with local councils and many other organisations, but it also saves you time and money in submitting many tenders.

We provide one simple and easy process for you to access work Queensland-wide. It is a one-to-many relationship which priorities local businesses as a first choice.

- More opportunities for new business
- More visibility with local government and many other organisations
- Simple and easy tender process
- Saves you time and money
- Helps you meet local government legislation and other requirements.

## What our suppliers say

"More than 50% of our business comes from Local Buy arrangements. It's great to be able to have that kind of support and stability."

"For me, being a Local Buy supplier not only provides us with more business, more opportunities and more brand visibility with local councils and many other organisations, but it also saves me time and money I would otherwise be spending in submitting tenders."

### Sean Rice

Managing Director

Engineering services provider, Proterra Group

"Through our Local Buy partnership, we have had the opportunity to support local councils within our region and receive new business opportunities that we wouldn't have had exposure to otherwise."

"Historically, it was difficult to approach the local government sector without already being an approved vendor. Local Buy allows purchasers the capability to work with a number of suppliers while giving suppliers like ours the opportunity to display our products and services to the sector."

### Tiffany Brown

Head of Sales and Marketing

Uniform, PPE and safety equipment provider, Reali Supply

**"Local Buy allows purchasers the capability to work with a number of suppliers"**
