Acknowledgement of Country

Livingstone Shire Council acknowledges Traditional Owners of Country throughout the Shire and recognises the continuing connection to lands, waters and communities.

We pay our respect to Aboriginal and Torres Strait Islander cultures; and to Elders past and present.

The Livingstone Shire Council Community Plan 2030 commits to honouring the history and ongoing contributions of Traditional Owners to the Livingstone region and the fundamental role they play in shaping our region.

Aboriginal and Torres Strait Islander peoples should be aware that this website may contain images or names of people who have since passed away.

Foreword Mayor

Our vision of inspiring communities, advancing opportunities is the foundation stone of our new Community Plan 2030. It will underpin everything we do as a council, ensuring our region and its communities continue to flourish.

In developing this new plan, we reflected on what our community and organisation want to see over the next five years. This has provided clear direction; to ensure Livingstone maintains its relaxed community spirit while celebrating our natural beauty, vibrant culture and thriving economy.

The foundations of the new plan were laid by the whole of community planning process undertaken in 2019 to develop the Livingstone Community Plan: Towards 2050. The new plan is more succinct in nature and represents both a Community Plan and Council's legislatively required Corporate Plan. Council remains committed to working diligently to achieve our community's aspirations set out from that process undertaken in 2019.

The Community Plan 2030 commenced as an internal engagement process where organisational leaders reviewed the outcomes and measures and organisational priorities for the next five years. Councillors then took an active lead role in engaging with the community in determining what is important to residents of the region and how best meet their future vision for the Shire.

The Community Plan 2030 includes four key themes that Council will focus on. These areas are based on what our community and staff have told us were most important. Each area is supported by a range of outcomes, performance measures and key deliverables, so we can hold ourselves accountable for the delivery of the plan.

Our annual Operational Plan and Budgets cascade from our five-year Community Plan and organisational priorities, making meaningful connections to how we delivery our projects and initiatives.

We live in a beautiful Shire that offers so much to residents and visitors alike. Its natural beauty, combined with contemporary recreational opportunities all contribute to Livingstone's unique character.

One challenge we face is supporting developing and growth that complements our Shire, enhances our strong sense of place and encourages staged and sustainable growth to support a strong future for our communities.

We are thrilled to share our Community Plan 2030 with you. We are confident that our shared vision and strong strategic direction will guide us to serve the community to the very best of our abilities.

Our Organisation

Livingstone Shire Council is proud to serve the region as we work on building a thriving community together.

Our core values of Teamwork, Potential, Accountability, Community and Positivity drive the way in which operate. These values serve to guide our Community Plan and help Council achieve its goals

Council has a workforce of just over 380 staff and 3 portfolio areas that work together to service the community.

These are:

Our Vision

Council is committed to *inspiring communities* and *advancing opportunities*.

This means working continuously to ensure our region is welcoming, connected, and resilient with a relaxed community spirit, celebrated for its natural beauty, vibrant culture, and thriving economy.

The Community Plan 2030 is the umbrella under which Council's annual Operational Plan and Budgets are prepared. It defines the strategic direction and vision of the council for a period of five years.

The **Operational Plan** expands the Community Plan into more detailed activities and provides an annual program of works based on identified Community Plan priority areas.

The **Budget** ensures that all identified planned activities are fully funded and that proper consideration is given to ensuring Council remains financially sustainable.

In addition to the Community and Operational Plans, Council has a range of issue specific informing Strategies and Related Plans to support delivering the services, assets and projects required by the community.

Each year the Annual Report provides a scorecard of our achievements against the Community Plan.

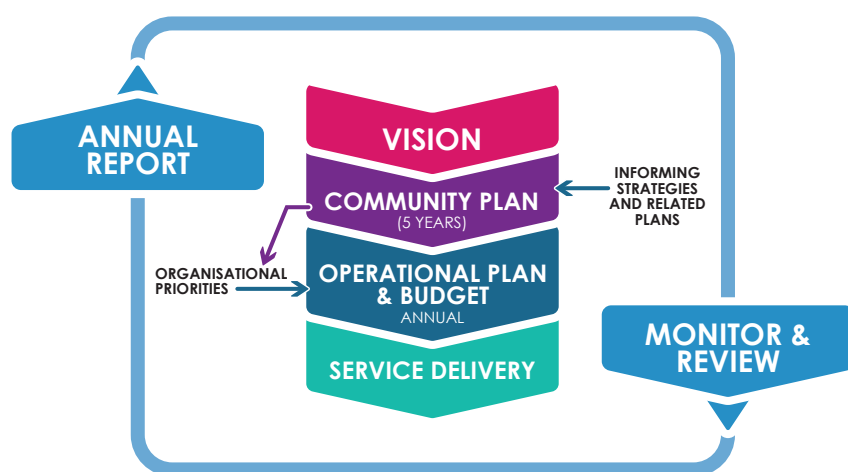

OUR COMMUNITY PLAN 2030

The Community Plan 2030 (the Plan) is Livingstone Shire Council's (Council) key strategic document.

It provides a clear framework to guide Council in decision making and policy directions, prioritising and delivering services, programs, projects, and facilities to the community.

The Plan has been developed by consolidating the *Livingstone Community Plan: Towards 2050* and the *Corporate Plan 2020-2030* and continues to reflect the intent of the community's aspirations about the future of our region.

Through the engagement undertaken to develop *Livingstone Community Plan: Towards 2050*, Council learnt that residents want the future of Livingstone to be welcoming, connected, resilient with a relaxed community spirit, celebrated for its natural beauty, vibrant culture and thriving economy.

Strategic Alignment

The Community Plan is part of our broader Strategic Planning Framework. The framework connects our direction with operational service delivery. The relationship between the Vision, Community Plan, Operational Plan, Budget and Corporate Reporting is explained below.

Annual Operational Plan

Each year, Council adopts an operational plan. It captures key deliverables in that year based on the Community Plan goals and priorities. The annual operational plan supports our annual budget process.

Annual Report

At the conclusion of each financial year, we produce an annual report that reviews our performance and achievements. The annual report provides our community with concise operational and financial information about our performance against the priorities and service delivery commitments set out in the community and operational plans.

Quarterly Performance Report

Every three months, a quarterly performance report is prepared and presented to Council. This report outlines performance and progress on priorities identified in the Operational Plan.

Council Reports

Over the life of the plan, additional progress reports may be submitted to Council detailing specific achievements against the plan as well as organisational performance.

The Community Plan Explained

Our Community Plan 2030 is structured around four (4) themes or key result areas that describe our aspirations for the future of Livingstone Shire region and the Livingstone Shire Council. The themes are the foundation stones of Council's Community Plan. They indicate what Council will focus on to bring our vision to life and serve the community. The areas of focus help Council to prioritise service delivery, programs and projects over the next five years.

Each theme contains key intended outcomes which will inform Council's annual Operational Plan and Budget.

These theme areas are:

For each theme area, the Community Plan nominates:

A STATEMENT OF INTENT

A concise and focused statement of Council's intended outcomes for that theme area.

OUR INTENDED OUTCOMES

Clear outcome statements for what Council wants to accomplish.

OUR MEASURES OF SUCCESS

Important performance indicators that are measurable and demonstrate what success looks like over the life of the plan.
